

GRG 21/1

Series
Description

Land tax assessment returns Appendix 2

These forms were required to be completed by individual land holders and were collated by the Land and Income Tax Department, on the basis of which tax was levied at a rate of one halfpenny for every pound of unimproved value.

Land tax was introduced in 1885, the only year for which returns have been kept. Each return gives details of land owned, extent, location, mortgages, mortgagor, owner and occupier. Occasionally, correspondence has been attached to the return.

Series date range

1885

Contents

The returns are arranged alphabetically, but the arrangement is not always by the owner's name. Often the name of the mortgagor, agent or trustee, is substituted.

Where this has occurred the owner's name has been indexed separately in the Special List.

A - W

A copy of this series is available on microfilm in the State Records Research Centre.

This list has been made text-searchable using Optical Character Recognition (OCR) technology. Please browse the list if you are unable to locate information using the Ctrl F 'find' function.
