INTRODUCTION

Government Record Group 24, series 1, is one of two main series of Colonial Secretary's Office correspondence files and the only one that covers the first five years in the history of South Australia.

The office of Colonial Secretary in South Australia originated with the appointment of Robert Gouger by an Order in Council of King William IV on 13 July, 1836. It has been said that his appointment might be seen as a reward for his role as one of the founders of the new province. He formally took office at Glenelg, South Australia on 28 December, 1836.

Following a quarrel with Osmond Gilles, the Colonial Treasurer, which resulted in a brawl, Gouger was suspended and left for England in 1837. Succeeding Colonial Secretaries during the period of this correspondence are Thomas Bewes Strangways, from 12 August, 1837; George Milner Stephen, from 17 October, 1838; (William Nation, the Chief Clerk, stood in for a time in 1838), Robert Gouger (who had been reinstated by the Colonisation Commission) from 8 July 1839; George Hall, acting during Gouger's ill health from 1 July, 1840; John Alexander Jackson from 16 October, 1841; Alfred Miller Mundy from 10 June, 1843; Charles Sturt from 14 May, 1849; with Boyle Travers Finniss acting for a short time at the outset (Finniss eventually succeeded Sturt – on 3 January, 1852).

No explicit instructions have yet been found about the work and office procedures of the Colonial Secretary, but from its inception the office was the main executive and co-ordinating authority of government administration. It had a special function as the correct channel of communication with the Governor by other Government departments and by the public generally. The business of the office touched on nearly all aspects of life of the province – postal arrangements, Aborigines, petitions, legislation and pastoral lands are just a few important examples.

Many of the letters in this series are addressed directly to one or other of the first five Governors – Hindmarsh, Gawler, Grey, Robe and Young – or to the respective Private Secretaries. George Stevenson's name has not been observed, but there are letters to George Hall, Alfred Miller Mundy and William Littlejohn O'Halloran.

In a sense this is an artificial series. No register exists of the letters received in the Colonial Secretary's Office before the Rough Entry Book for the period from the beginning of 1839 (GRG 24/7/1). The numbering used there may be seen on some of the letters, but many of those registered between 1839 and 1841 have been lost.

In view of the large gaps in the registered letters of these three years it was decided when they were transferred to the Archives not to include them in the main series of Colonial Secretary's Office in-letters (GRG 24/6), which from 1842 is largely complete.
Instead they were arranged with two other categories of early communications: on the one hand letters bearing no original registration number; and on the other letters that carry registration numbers but are not from the main series. They were possibly registered separately as letters addressed directly to the Governor or his Private Secretary, but the relevant entry books have not survived.

Communications in these three categories – the vestiges of the Colonial Secretary's registered inward correspondence, 1839–41, unregistered communications, 1836–51, and letters registered but not as part of the main body of Colonial Secretary's Office files – have been arranged in one chronological sequence and renumbered.

To further complicate matters, not all the material in these categories was received in the Archives at the same time. The two main transfers were in December 1920 and August 1940, but individual letters have come on later occasions. The need to interpolate new accessions explains the rather curious method of numbering that has been imposed. For example in 1839 the numbers go from 312 to 312a, thence to 312a1 and onwards to 312a46 before arriving at 313. One late insertion (a letter received with a transfer from the Attorney General's Office in November 1961) has an even more complicated number – 312a28a.

The imposed numbering starts at number 1 in each year except that, possibly by mistake, the numbers continue without a break from 1838 to 1839, the last letter in 1838 being number 310 and the first letter in 1839 being 311.

An error in the chronological arrangement should also be pointed out. The "Minutes of the meeting of the Medical Board appointed to enquire into the causes of the sickness and suffering and mortality on board the "Java" emigrant ship" numbered 1839/312a27, as if it belonged to February 1839, in fact belongs to February 1840 (the Java arrived on 6 February, 1840). This item does not appear on the microfilm except in the form of a typescript transcript. The original was considered too fragile to be filmed. It is charred from damage by fire.

Brown stains on a number of other letters (chiefly letters of 1839) are testimony to damage by fire and water at various times.

Many of the letters are stamped with a rubber stamp bearing the words "Colonial Secretary's Office, South Australia" and the date of receipt.

The index, which was begun in the 1930's by the first Archivist, Mr G.H. Pitt, with the help of Miss D.M. Paynter and others, also covers a relatively small number of items of correspondence of the Judge and Clerk of the Supreme Court, 1838–52 (GRG 36, series 57).

Replies to these communications are not indexed here. Replies may be sought in Government Record Group 24, series 4. Index references to them are included in an index which covers both series 6 from 1842 to 1856 and series 4 from 1837 to 1856.
