

## GRG 78/57

## Case books - Adelaide Hospital

Series  
Description

This series consists of patient case books from the Adelaide Hospital.

Information in the case books varies over time, but generally includes name of patient, age, civil status, occupation, residence, birthplace, years in Colony, date admitted, disease and injury, date of discharge, result of treatment, medical notes and temperature charts where used. If a patient died in hospital, there may be some post mortem notes.

Series date range

1868 - 1924

Agency  
Responsible

Royal Adelaide Hospital

Access  
Determination

Open after 60 years.

Contents

1868 - 1924

The List is arranged numerically and then alphabetically by the doctor's name.

Within the case books, patients are ordered from date of admission.
